

CREC's NEXT GENERATION SCIENCE CONSORTIUM Assessment Development Sessions

Assessment of the three dimensions of the Next Generation Science Standards is a critical component of implementation. As a part of the consortium's work, we will be offering assessment development sessions.

These sessions will help districts develop a process of assessment to measure student progress towards the NGSS performance expectations.

While the current units contain activities and summative work related to anchor phenomenon, data collection relative to each performance expectation is not present. This cohort of participants will develop an assessment process, including formative and summative components, to assess student achievement in relation to the three dimensions of the NGSS.

SESSION DATES BY GRADE

Grade **K** [REGISTER](#)
January 19 & January 22

Grade **1** [REGISTER](#)
January 25 & January 26

Grade **2** [REGISTER](#)
January 31 & February 1

Grade **3** [REGISTER](#)
February 5 & February 6

Grade **6** [REGISTER](#)
February 13 & February 14

Grade **9** [REGISTER](#)
March 1 & March 2

The same person must attend both dates.

For additional information contact Jaime Rechenberg at jrechenberg@crec.org.

Please bring ear buds and a laptop or other device for note-taking and access to on-line resources.

Time:

8:30 a.m – 3:30 p.m.

Location:

Grade Specific

(Follow link for session location.)

Cost:

\$300 per person

Lunch is on your own.
