Description: This three-day training is for prospective mentors and cooperating teachers selected by their district. Participants will review the TEAM five-module process for mentoring beginning teachers. In addition, participants are prepared to host a student teacher while developing effective coaching strategies.

Objectives: Participants will become trained mentors who are able to:

- Provide beginning teachers with the support they need to develop as effective educators
- Ease beginning teachers' transition into the profession in order to retain effective teachers
- Develop teachers who are reflective practitioners, able to critically assess their practice against Connecticut teaching standards, and are committed to continuous professional learning
- Cultivate an understanding of an educator's professional responsibilities
- Foster collaborative learning communities for all educators
- Provide excellent teachers the opportunity to develop as educational leaders

Audience: All educators with a provisional CT endorsement
