

Building Math Rigor

When:

October 20

[Separate workshops and times for middle and elementary schools]

Where:

CREC Central
111 Charter Oak Ave.
Hartford, CT

Cost:

\$60 per person,
per session

For a complete listing of CREC's Expert Solutions events, visit www.crec.org/events

Description: These workshops are designed to develop awareness about practices that build academic rigor and engage students, improve students' understanding of foundational concepts and conceptual instruction, provide experience with CCS activities/lessons using manipulatives, and create activities and lessons that are more rigorous.

Audience: Teachers, math coaches, and curriculum specialists

For additional information contact Peggy Neal at pneal@crec.org.

Please bring ear buds and a laptop or other device for note taking and access to on-line resources.
