Description: The RESC Alliance has updated this professional learning, increasing the focus on high-impact components of the process. The interactive session concentrates on the evaluator's capacity to observe and analyze teacher performance through the lens of the CT Common Core of Teaching (CCT) and to provide supportive, high quality feedback to teachers. Participants will learn how to use a feedback cycle to collect evidence, analyze the connection to CCT indicators, and help teachers plan for appropriate instructional improvements. They will have multiple opportunities to apply their learning and receive personalized feedback to improve in the effective evaluation of teachers, and to engage in a summative demonstration of proficiency.

Audience: New Administrators that evaluate teachers, or those who want to refresh their skills observing and providing feedback.

Please Note: Participants must bring a laptop with Microsoft Word (version 8 or later), earbuds and an electronic or paper copy of your district's Teacher Evaluation Plan. Food and beverage are not provided.
