# English Language Learner Workshops January–June 2018

## Moving English Language Learners (ELLs) from Oral Storytelling to Picture Book Writing - Grades K-5

January 23, 2018

Educators will learn various ways to build oral fluency, listening comprehension, use Las Links' writing subtest assessment score, interactive writing methods and writing workshop approach and resources to engage student writers to oral rehearse and increase their written volume across pages in a booklet.

**REGISTER**

## Assisting ELs in Foundational Reading Skills - Grades K-5

January 24, 2018

Educators will learn various ways to build sight word fluency, provide appropriate phonics instruction, build vocabulary strategies, strengthen reading comprehension, and provide resources to engage students in the reading process.

**REGISTER**

## Meaningful Instruction: Using Bloom's Taxonomy for English Learners in the General Education Classroom Higher-Order Thinking Skills by Proficiency Levels

February 27, 2018

Educators will learn various ways to build academic discourse and will be provided engaging activities that motivate students in the learning process.

**REGISTER**

## Unpacking the Coaching and Self Reflection Tool for Competency in Teaching English Learners

March 7, 2018

Participants will learn to use the resource, "The Coaching and Self-Reflection Tool for Competency in Teaching English Learners" in professional coaching conversations, in self-reflection on BEST Practices for English Learners, and for reflection and discussion.

**REGISTER**

## When ELs Struggle: Basic strategies for the General Education Teacher

March 23, 2018

The session will give educators various ways to build their "bag of tricks" while learning about how ELs learn and develop language.

**REGISTER**

## EL and Math workshop

May 1, 2018

The session will give educators various ways to build math fluency, provide appropriate strategies for the different language proficiency levels, how to build math vocabulary, strengthen and elicit math terms and ideas, offer ideas and examples on how to provide support, and provide resources to engage students in the math classroom.
