Learn More about CREC's NGSS Curriculum (Webinar)

February 22

2 – 4 p.m.

Online Webinar

REGISTER

For a complete listing of
CREC's Expert Solutions events, visit
www.crec.org/events

District Administrators, Assistant Superintendents, STEM Directors, Science Department Chairs and Teachers that want to learn more about CREC's NGSS Curriculum and science services can participate in an **open forum style webinar**.

Dr. Jaime Rechenberg, will be featured on the webinar conversation. She will showcase the NGSS curricular units (development, structure, and timeline), assessments for each unit, and launches that include a review of the unit prior to teaching the unit.

CREC's work on the NGSS is timely given CSDE's timeline for assessing students on the NGSS. The cost of unit acquisition, as well as Q&A will be embedded in the conversation.

*Webinar login information will be sent
three days prior to the event.*

For more information,
please contact Jaime Rechenberg,
