or more from the same district
(must be on the same purchase order)

REGISTER

Do you struggle to find measures of student growth that reflect important goals for learning? Those things that matter most for long-term student success are the most difficult to measure, report, and evaluate.

Join with colleagues from throughout the state to examine different perspectives about assessing student learning.

This full-day Thinkshop is designed to encourage new ways of thinking about assessment and measurement in your classroom, school, or district.

For additional information, contact Sue Renehan at srenehan@crec.org or 860-335-8980.

KEYNOTE SPEAKERS

KARIN HESS, Ed.D.

Competency-Based Assessment

Dr. Karin Hess has over 40 years of deep experience in curriculum, instruction, and assessment. She is a former teacher and school administrator and is recognized internationally. Karin's tools and approaches to assessment development are now in her new book, *A Local Assessment Toolkit to Promote Deeper Learning*.

KEN O'CONNOR

Standards-Based Grading

Ken O'Connor specializes in issues related to the communication of student achievement. Since 1995, he developed guidelines for grading, and standards-based reporting. Ken is regarded as one of the few leading experts on efficient grading and reporting.
