Research indicates that the growth and development of a child or youth is optimized when afterschool and youth development professionals know and apply the fundamental principles of human development (NIOST, 2011). In continuation of our professional development focus, participants will increase knowledge of youth growth and development to support the design of developmentally impactful activities and afterschool environments.

Participants will need to bring their complete afterschool learning and enrichment offerings.

Meeting dates for this year are:

- November 13, 2018
- January 15, 2018
- April 24, 2019

For additional information, please contact Tamika M. Thurston at 860-509-3779 or tthurston@crec.org.

Please bring a laptop or other device for note taking and access to online resources.
